

ULTIMATE MULTI-DWELLING UNIT

SMARTTOUCHUSA

Although no two individual MDU units are alike, a consistent user experience inside each one enhances lifestyle and security, raises property values, and helps attract and retain modern renters and buyers. SmartTouchUSA recently transformed this 50-unit residence and hotel in Baltimore, MD to deliver on that promise by standardizing on the Crestron platform as the technology backbone, and providing a custom UI. ULTIMATE CRESTRON HOME

AHT GLOBAL

The homeowners wanted to incorporate best-in-class automation and control technology throughout their property, including 4K video distribution, without disrupting the aesthetic. They needed a solution that was dependable, secure, and sleek. The homeowners brought in AHT Global to design and deploy a custom solution that would bring their vision to life. With the help of Crestron, AHT Global created a solution using DM NVX™ network AV technology and Amazon Alexa® that surpassed the client's expectations – so much so that they enlisted AHT to upgrade their other properties.
